RESERVATIONS OPEN AUGUST 1, 2011

WAIKIKĪ AQUARIUM SCHOOL PROGRAMS

 **Docent-Guided Tour:** A 75-minute program led by staff and trained volunteer docents. It features a 30-minute interactive classroom presentation followed by a 45-minute guided tour of Aquarium exhibits focused on the presentation theme. Teacher information packets include a presentation outline, pre- and post-visit activities, games, discussion ideas, vocabulary, and a bibliography. There is a **\$60 program fee** for docent-assisted visits. Program fees may be paid on arrival by credit card, check, cash or purchase order. *Schools that cancel less than one month prior to the program date or fail to arrive for the program will be billed the entire program fee.*

Grade Level Themes

Kindergarten: Life on the Coral Reef

Young scientists examine where marine animals live, what they eat, where they get their oxygen and whether they are vertebrates or invertebrates.

Grade 1: Staying Alive on the Coral Reef

Students learn many different ways that reef animals protect themselves and stay alive.

Grade 2: Hawaiian Shoreline and Reef Communities

The survival adaptations of marine animals and plants are shaped by varied shoreline and reef conditions.

Grade 3: People and the Reef: Interactions

People interact with the reef in either helpful or harmful ways. We can learn to choose helpful interactions.

Grade 4: Hawaiians and the Sea

Early Hawaiians used the sea for food, medicine, and tools and practiced a conservation ethic that is relevant today.

Grade 5: Coral Reef Food Webs

Coral reef food webs demonstrate that every plant and animal plays an important role in the health of the sea.

Grade 6: What is a Coral? Why is it important?

Many plants and animals live on the coral reef and depend on it and each other to survive. Humans also depend on the coral reef in many ways. Let's see why it's so important!

Kids Art

Waikiki Elementary Grade 2

 **Self-Guided Visits:** Teachers of all grade levels, from preschool through college and beyond, may make reservations for one-hour, self-guided tours of the Aquarium's exhibits as a way to enrich classroom lesson plans, work on special projects and broaden students' experience.

 **Special Presentations:** Presentations are offered for all grade levels including high school, college, adult education and community organizations as staffing and Aquarium classroom space permit. Presentations vary from 30 minutes to an hour and may be followed by a self-guided visit of the exhibits. The Aquarium classroom can accommodate up to 50 students. Program fees for presentations begin at \$50 depending on the presentation and preparation time. Separate admission fees may apply.

 **School Outreach:** We can bring a classroom presentation to your school. Call our reservations office for more information.

HOW TO MAKE A RESERVATION

Reservations open: Monday, August 1, 2011.
Please call 440-9011, Weekdays 8:30 am - 2:30 pm

Please have the following information when you call:

- Type of program you would like
- Choice of dates and times
- School or group name
- School or group phone number
- School address and zip code
- Name of contact teachers or group leaders for each reservation
- Number of students
- Grade level
